Evidence of perfection: Evidence of perfection of a security interest may include documents showing that a security interest has been filed or recorded, such as a mortgage, lien, certificate of title, or financing statement.

Information that is entitled to privacy: A *Proof of Claim* form and any attached documents must show only the last 4 digits of any social security number, an individual’s tax identification number, or a financial account number, only the initials of a minor’s name, and only the year of any person’s date of birth. Priority claim: A claim within a category of unsecured claims that is entitled to priority under 11 U.S.C. § 507(a). These claims are paid from the available money or property in a bankruptcy case before other unsecured claims are paid. Common priority unsecured claims include alimony, child support, taxes, and certain unpaid wages.

Redaction of information: Masking, editing out, or deleting certain information to protect privacy. Filers must redact or leave out information entitled to **privacy** on the *Proof of Claim* form and any attached documents.

Secured claim under 11 U.S.C. § 506(a): A claim backed by a lien on particular property of the debtor. A claim is secured to the extent that a creditor has the right to be paid from the property before other creditors are paid. The amount of a secured claim usually cannot be more than the value of the particular property on which the creditor has a lien. Any amount owed to a creditor that is more than the value of the property normally may be an unsecured claim. But exceptions exist; for example, see 11 U.S.C. § 1322(b) and the final sentence of § 1325(a).

Examples of liens on property include a mortgage on real estate or a security interest in a car. A lien may be voluntarily granted by a debtor or may be obtained through a court proceeding. In some states, a court judgment may be a lien.

Setoff: Occurs when a creditor pays itself with money belonging to the debtor that it is holding, or by canceling a debt it owes to the debtor.

Unsecured claim: A claim that does not meet the requirements of a secured claim. A claim may be unsecured in part to the extent that the amount of the claim is more than the value of the property on which a creditor has a lien.

Offers to purchase a claim

Certain entities purchase claims for an amount that is less than the face value of the claims. These entities may contact creditors offering to purchase their claims. Some written communications from these entities may easily be confused with official court documentation or communications from the debtor. These entities do not represent the bankruptcy court, the bankruptcy trustee, or the debtor. A creditor has no obligation to sell its claim. However, if a creditor decides to sell its claim, any transfer of that claim is subject to Bankruptcy Rule 3001(e), any provisions of the Bankruptcy Code (11 U.S.C. § 101 et seq.) that apply, and any orders of the bankruptcy court that apply.

PG&E Claims Form – S

PG&E Customer Account No. 6340456353-6

Richard S Tanner

Nanette C Tanner

590 E HWY 4

MURPHYS, CA 95247

Description of Incident: August 14, 2018

On August 14, 2018. Per PG&E FIELD ORDER #9227293577, Meter #1010459254 was installed, replacing our #088314 on our property at 590 E Hwy 4, Murphys, California 95247, by PG&E employee Nick W.

My wife Nanette, and her friend was home during the installation of the new upgraded meter. She was with her friend on the computer in the study and the lights were suddenly flashing on and off a few times. Then it happened again but this time they did not come back on. Then she noticed that the electricity hadn't come back on elsewhere inside the house either. The computer she was using (there are 2) and the printer both were not working. Nanette got PG&E employee Nick W.'s attention as he was walking to his truck to leave. Nick came back and he was able to turn the electricity back on. He talked with Nanette and said the meter was not installed properly but that he was able to turn on the electricity in the house again; noting that still the computer and the printer were not working.

We made an appointment for Nick W. to come back when we found out many other appliances and electrical in the house were also not working.

On August 16, 2018 PG&E meterman Nick W. returned with his supervisor. We met and discussed what we were experiencing. Nick W. and his supervisor checked over the downstairs floor and the basement.

- The GE kitchen refrigerator wasn't working right, it was beeping and keep beeping like it wasn't closed when it definitely was closed.
- The radio suddenly put out such a strong loud static we could not hear the radio.
- The dish washer didn't work right
- TV wouldn't work
- The surge protector the computer desk was ruined
- The TV and dvd player and other appliances which we had not initially noticed or thought to check were not working.
- Kitchen light flickered.
- The other kitchen refrigerator in the pantry area was not keeping ice cream frozen and did not keep the items on the door very cold.
- Nanette had called Nick because the sprinklers did not come on as usual. They discussed the situation and she called a landscape company to come and replace the sprinkler source box
